GIF's Process Book
## Meaghan Donahue
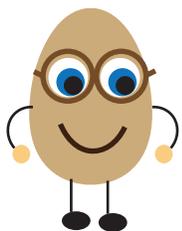

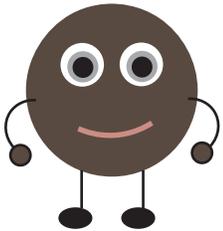

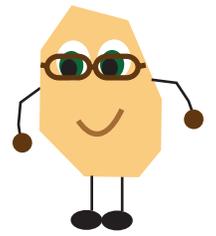

Sketches

First Attempt

My first attempts are lacking background. I realized they don't work on their own. I need to give my gifs context for their actions.

Finals

Thoughts

When I first made my gifs I only put a white background behind them. I quickly realized that without any background it is hard to understand the motion of rolling and walking my bagels are doing. I also made both my gifs longer so they could loop more naturally.
